Bat-tastic!

HOW TO MAKE YOUR BAT MASK

1. Cut the bat out along the outside edge.
2. Color it in.
3. Cut out the eye holes (A and B) so you can see through the mask, and cut a small hole in each wing (C and D) for the elastic.
4. Cut a piece of elastic thread about 12 inches long, or snip a large rubber band once so that it forms one long strand.
5. Tie the ends of the elastic through holes C and D.
6. Put the mask on and make someone scream!
